🔄 RasikaPrabath

PROFILE

Software Engineering undergraduate with hands-on experience in full-stack web development through academic and personal projects. Quick learner with good teamwork skills, eager to apply technical knowledge and contribute to software projects.

EDUCATION

BSc (Hons) in Information Technology, Specializing in Information Technology,
Sri Lanka Institute of Information Technology (SLIIT)

2023 – Present

PROJECTS

TravelEaseLK – Full-Stack Travel & Tour Booking Platform 📄, *Individual Project - Completed*

Tech: Next.js, React.js, TypeScript, ASP.NET Core 8, SQL Server, Tailwind CSS, JWT Authentication

- Engineered a full-stack travel booking platform with two portals (customer and admin) for browsing destinations, managing tour packages, creating bookings, and handling reservations.
- Built and integrated 5 RESTful API modules (packages, bookings, users, blogs, admin operations) using ASP.NET Core with JWT authentication.

Luxury.lk – Online Clothing Store Platform 📄, *Individual Project - Completed*

Tech: Next.js, React.js, TypeScript, ASP.NET Core 9, SQL Server, Tailwind CSS, JWT Authentication, Google OAuth

- Designed a full-stack e-commerce platform spanning 6 core modules: customer, admin, authentication, product, order, and inventory management.
- Implemented RESTful APIs with a responsive Next.js frontend, securing access via JWT authentication and Google OAuth.

UniShare - Online Resource Sharing Platform 📄, *Group Project - Completed*

Tech: React.js, Node.js, Express.js, MongoDB, Mongoose, JWT, REST APIs

- Contributed to a student resource-sharing platform enabling academic material sharing, discussion forums, meeting scheduling, and quizzes.

- Built the User Management module: registration, authentication, profile management, and role-based access control.

Osethra - Hospital Management System [↗](#), *Group Project - Completed*

Tech: React.js, Material UI, Node.js, Express.js, MongoDB, Mongoose

- Contributed to a hospital management system digitizing patient appointments, doctor scheduling, and hospital workflows.
- Delivered the Appointment Management module: scheduling, patient details handling, doctor allocation, status updates, and frontend–backend integration.

TECHNICAL SKILLS

Programming Languages
C#, JavaScript, TypeScript, Java, Python

Frontend Technologies
React.js, Next.js, HTML5, Tailwind CSS

Tools
Figma, Visual Studio Code (VS Code), IntelliJ IDEA, Postman, Drow.io

Version Control
Git, GitHub

Backend Technologies
ASP.NET Core, Node.js, Express.js

Databases
MySQL, MongoDB

Concepts
OOP Concepts, Agile Development

SOFT SKILLS

- | | |
|----------------------|-------------------|
| • Team Collaboration | • Problem Solving |
| • Leadership | • Communication |
